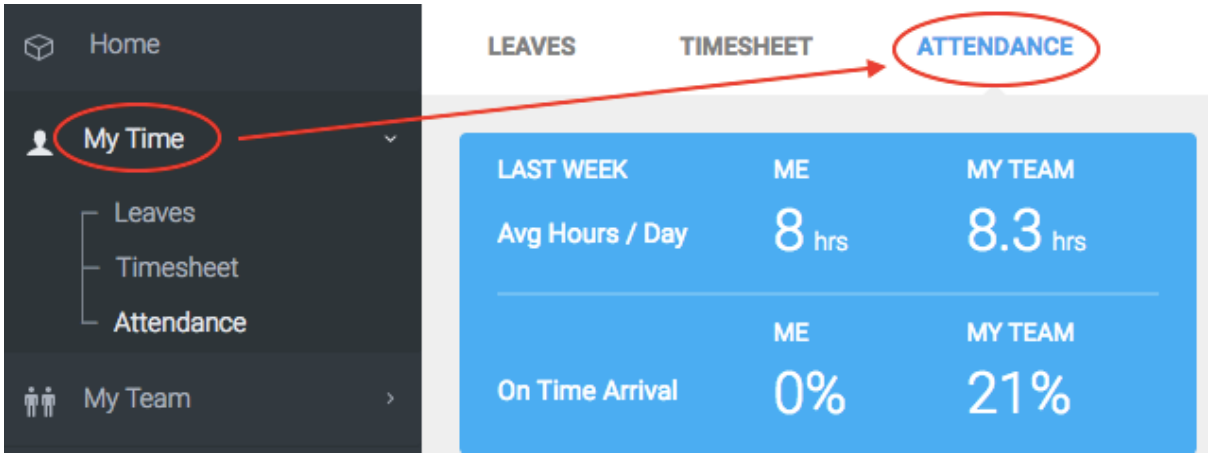
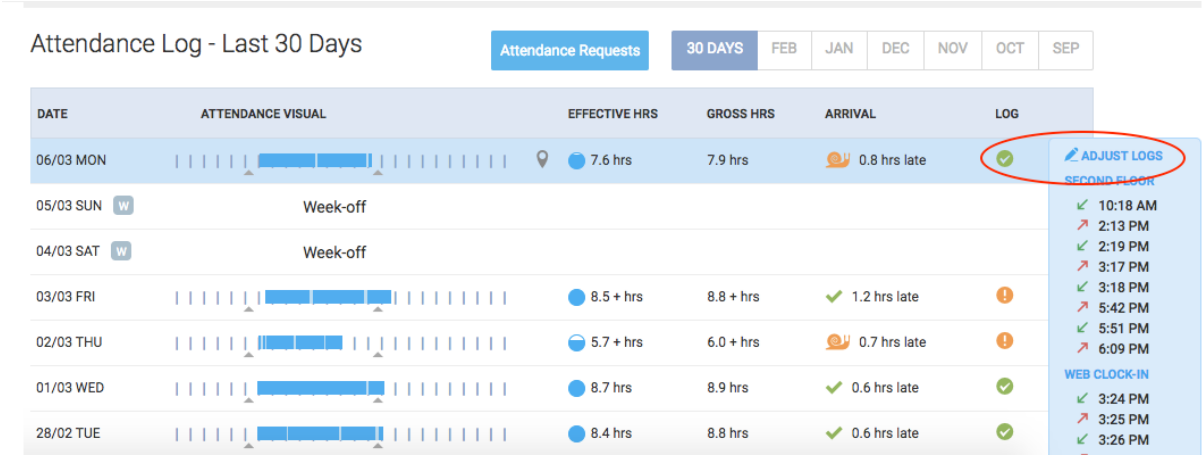
To do attendance regularization, follow the steps below:

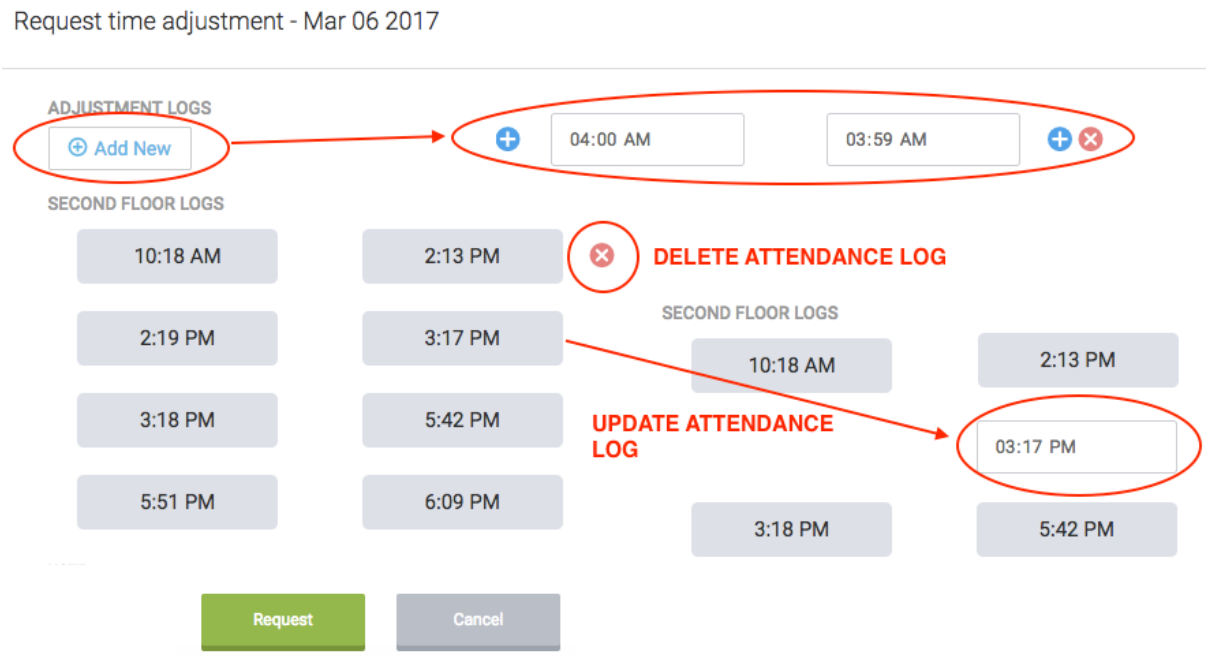
Step 1: Go to My Time >> Attendance



Step 2: You can view your daily attendance under this section. When you mouse over any day's attendance, you will find an option to 'Adjust Logs'. Click on this option if you wish to adjust attendance logs



Step 3: On the pop-up that appears you can choose to add, delete or update time logs. Once done with the adjustment, click on 'Request'.



Note: Your request might go to your reporting manager or admin for approval before taking effect.

Q3. How much time it will take to effect or adjustment of attendance when the request has been sent from our end?

Ans. Maximum 30 days, or Every month last week, depending on IT Team.

Q4. If my attendance has not been adjusted, even after 30 days' status remains the same? what to do next?

Ans. Refer Helpdesk policy in keka Organization Documents Tab or if need to drop an email to it@ahex.co.in. and mention the concern.

Q5. Employees' leaves are getting deducted due to attendance discrepancy, what does this mean?

Ans. Leave deductions due to attendance discrepancy, this will result in Loss of Pay.

There might be a possibility that you are getting emails about employees' leaves getting deducted due to attendance discrepancies. This happens when there is a tracking policy. In case leave deductions are happening (and you are getting emails about the deductions) as soon as you added employees on Keka, write to **it@ahex.co.in**.

Note: Sometimes you may not be able to see your attendance logs in keka even after logging in, you have to wait for the next 48 hours to reflect in Keka. (Its Happens due to a server problem at the Keka end, not at our office premises) and if you still see any kind of discrepancy after 48 hours you can drop an email to it@ahex.co.in and address your concern.
