AHEX TECHNOLOGIES PVT. LTD.

Remote Work Policy

The purpose of this policy is to define the expectations and responsibilities of applicable parties throughout the span of a remote work arrangement.

Policy Brief and Purpose Statement:

Ahex Technologies provides remote work arrangements to employees to support a healthy workplace, improve work-life balance, maximize the effective use of office space, and support business continuity on an as-needed basis.

It is intended for all employees who plan to work from home or any other location outside of the formal workplace environment, either part-time or full-time.

It aims to ensure that employees benefit from the remote work arrangement just as much as the business as a whole.

Remote Work Agreement:

Meeting the criteria stated in this policy does not guarantee approval to work remotely. The approval of each remote work situation shall be made on a case-by-case basis at the discretion of management. The company reserves the right to approve or deny any remote work request at the discretion of the company and its representatives.

Eligibility:

Team members may choose from temporary and permanent remote work arrangements. To be eligible for either of them, a worker must be employed Ahex Technologies for *at least three months in a row,* show a good level of productivity and have no history of organizational policy violations.

Employees are entitled to *apply only 20 Days of WFH in a year* and cannot exceed 3 Days in a month.

Requests exceeding 3 days within a month or surpassing 20 days annually will be considered exceptions, contingent upon mutual discussion between the employer and employee. Otherwise, it will be treated as a loss of pay.

Conditions of Employment:

Requesting Work from Home Procedure:

- If an employee is not feeling well/sick, are not eligible to take work from home. He/She can apply for a leave.
- Employees are required to submit their requests either via email and the Human Resource Information System (Keka) with a minimum advance notice of 04 [four] days.
- This requires permission from Reporting Manager, HR Department and Head.
- If the work-from-home arrangement spans for more than a week, managers and team members should meet to discuss details and set specific goals, schedules and deadlines.
- During Work from home period, an employee has to run a web work tracker.

Note: The email process includes his immediate manager and hr@ahex.co.in must be cc.

Remote Work Specifications:

Remote employees are responsible for maintaining the same level of work productivity and efficiency as office workers. To fulfil this objective successfully, they are to comply with the following rules:

- **Equipment** | Every remote employee needs a work computer, a stable internet connection and the required software installations (Zoom, Slack, Microsoft Outlook and web work). Additional hardware and software needs depend on one's role and professional responsibilities. If necessary, Ahex Technologies will provide the mandatory work technology to remote employees and will be liable for maintaining it. Equipment owned by employees is maintained by employees. Ahex Technologies takes no responsibility for any damages to employee-owned devices.

- **Working hours** | Every remote team member is obliged to work the standard work hours a week.

- **Team communication** | Remote employees should participate in daily team meetings with colleagues at the agreed time. Throughout the workday, they must be available for team communication and collaboration via Slack, email and phone.

- **Performance monitoring** | Remote employees need to track their daily activities in web work and Keka in a way that reflects their current performance progress accurately. In case of any significant work challenges and task delays, employees need to contact their assigned managers through any convenient communication channel as soon as possible.

Data Security:

Remote employees are expected to maintain the same level of data security as those working in the office. To keep up with the security standards, all team members must:

- Lock confidential information whenever they're away from their desks/home offices and undertake other appropriate measures to ensure no unauthorized person can see it,
- Avoid sharing their work devices with family members or friends,
- Apply reliable antivirus and internet security software,
- Use strong passwords and change them regularly.

Upon a failure to comply with corporate security regulations that results in a data breach, the remote work agreement gets immediately terminated. Further penalties apply in line with the company's effective Data Protection Policy.

Productivity Guidelines:

To improve remote work outcomes, employees are recommended to dedicate a separate area in their homes for work. Keeping a home office clean, well-lit and distraction-free will help increase work efficiency.

As a means to reduce stress and prevent burnout, employees are expected to always adhere to their schedules, take regular breaks and not work overtime.
